Comment : We need your help, FCC!

I'd like you to make changes to help LPFM stations serve local audiences, and I'd like to thank you for making LPFM possible.

A □non-local□ station (WIMZ of Knoxville) is creating massive interference for our local WPVM-LP due to the unique contours of our mountainous terrain.

LPFM stations, especially those in challenging mountainous terrain, should be permitted to own translators.

I support the FCC's position on getting rid of the obsolete regulation of □third adjacent channel□ spacing.

I support FCC efforts □to increase the number of LPFM stations on the air and strengthen the viability of those stations that are already operating.□

Thank you for giving a voice back to the people via LPFM stations. We appreciate it!
